We Make

TWENTY YEARS OF MAKING

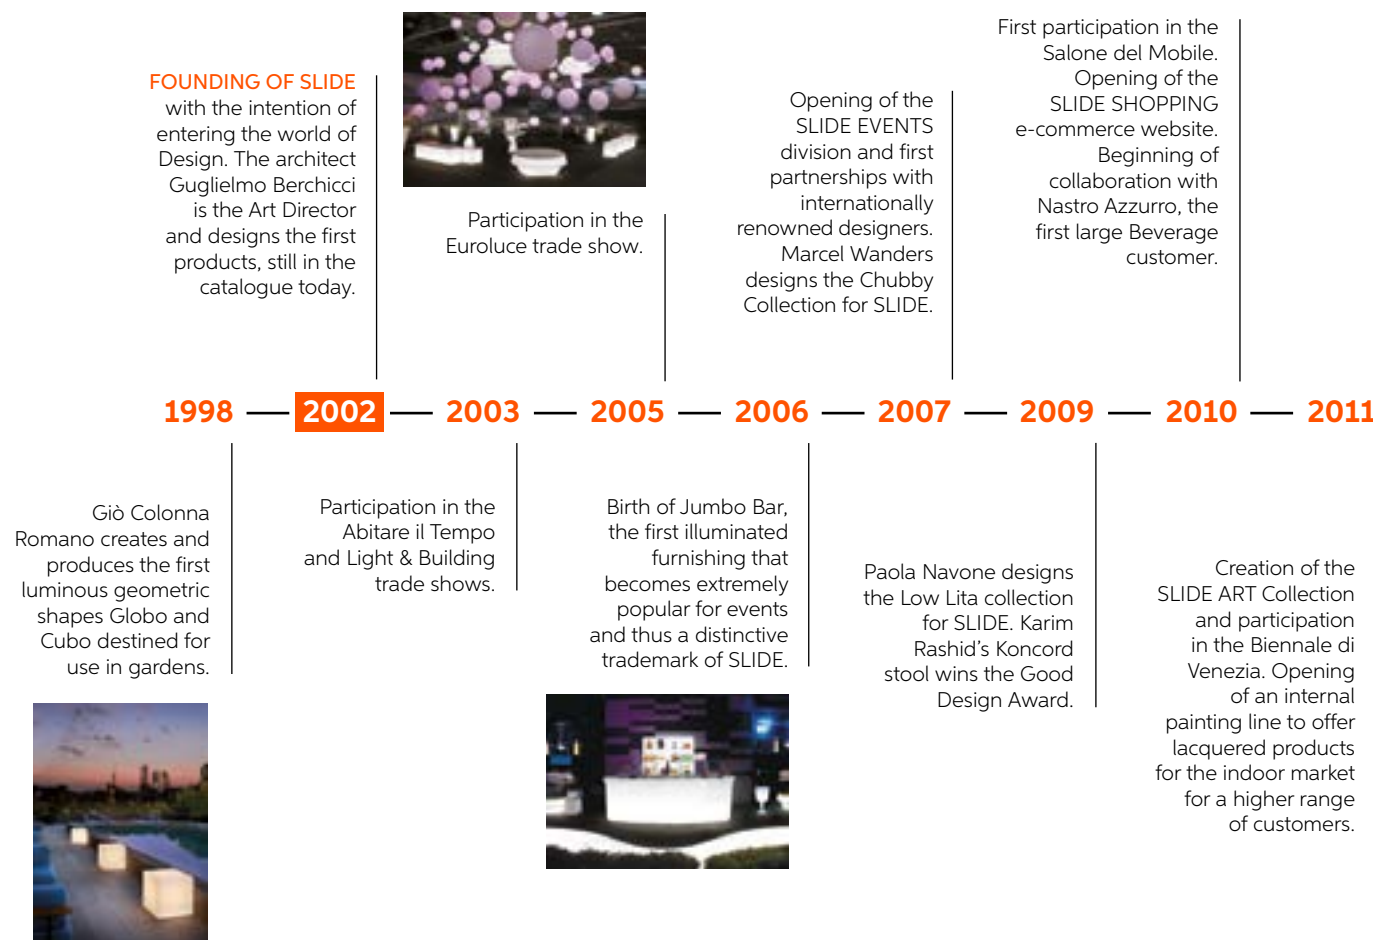

“Over the past twenty years, we have always created leading new products that have stood out and made us unique. We have therefore worked to create products that would uniquely identify SLIDE, as a distinctive hallmark: luminous furnishings, pop accessories, the Design of Love collection, the Amore and WOW benches, the Ambrogio and Amanda coffee tables, the Afrika collection, etc. All of these items are accompanied by armchairs, seats, more conventional tables and lamps with an elegant, contemporary design”.

Giò Colonna Romano

We have reached twenty years of business, a landmark but also a starting point, where we have used our art of making to create furniture and lights that make the places where our stories take place more precious. "Making" for us has two meanings: we are manufacturers, so we understand right down to the last particle used to create furniture; but we also create ideas, where our "We Make" philosophy is modelled on an initial project designed in-house or with the internationally renowned designers who have worked with us over the past twenty years. While still young, our history is that of a company set up to create ideas and eureka moments that have then become our core points.

In 2002, Giò Colonna Romano founded SLIDE, wanting to create awe and wonder. The first eureka moment came even before the creation of SLIDE: simple shapes, like spheres and cubes, created with translucent materials, whose inner light bulb emits a uniform light that adds decoration. Simple yet magical. With thirty years of knowledge of plastic materials, we pushed ourselves further to unleash the full potential of rotational moulding, and this led to our second eureka moment of luminous furnishing, which soon became a must-have in the event industry. All of this has led SLIDE to become well-known all around the world.

Throughout its history, SLIDE has been able to grow, innovate and stand out, offering complete furnishing for outdoors and for illuminating large spaces, residential and contract projects, but also small leading products for the home.

With the generational change that began in 2015, Marco Colonna Romano, supported by a young, passionate team, transformed SLIDE into a designer brand for all intents and purposes, expanding the offer and combining the typical colourful pop products with an increasingly wide-ranging, refined line able to satisfy the tastes of architects and ideal for the hotel and contract sectors.

The resulting image is that of a young, innovative company based on sound principles since its inception: the high quality of Made in Italy and the continuous pursuit of excellence in rotational moulding technology. Playful shapes and colours are complemented by other materials, new tactile textures and shades and nuances that only SLIDE can create. Still deeply rooted in its birthplace – in Buccinasco, on the outskirts of Milan – where the offices and production hub are located, SLIDE has made a name for itself and its products in more than 130 countries around the world.

TWENTY YEARS OF MAKING

Opening of the soft polyurethane production line, expanding the product range for contract orders. Presentation of Marc Sadler's Kami furnishing collection.

Generational handover: Marco Colonna Romano becomes CEO of SLIDE. Opening of the SLIDE Lounge for EXPO 2015, a dynamic showroom and temporary bar.

Opening of the SLIDE Showroom in Foro Buonaparte in Milan.

Issue of the first sustainability report. Ambrogio service table by Favaretto&Partners is already a best-seller and the first product made of second-life plastic.

2012 — 2013 — 2014 — 2015 — 2016 — 2017 — 2019 — 2021 — 2022

SLIDE enters the Elite programme of the Italian stock exchange. New collections designed by Alessandro Mendini.

Acquisition of the Design of Love collection and subsequent expansion.

The architect Roberto Paoli becomes Art Director of SLIDE.

Our concept "Contemporary Tradition" comes to life thanks to the collections designed by Lorenza Bozzoli, Fabio Novembre and Roberto Paoli. In this way, the industrial production and the craftsmanship get closer.

Afrika collection launch, that marks also the beginning of the cooperation with artist and designer Marcantonio.

We Make
IN ITALY

Right from the outset, one of our goals has been to bring the quality, creativity and culture of Made in Italy design all around the world, using a material that allows us to show our full potential: low-density polyethylene, processed employing a method that aims to minimise partially harmful emissions. Thanks to the collaboration of all divisions with the research and development department, over the years, we have managed to combine the spirit of craftsmanship with industrial processing.

A line was therefore created where nuances and finishes become unrepeatable and every product is therefore unique. We want our Made in Italy design to be an ethical choice, where ideas and their creation take place all in the same building. Choosing a SLIDE product means choosing a sustainable design and putting beauty and quality within everyone's reach.

We Make SUSTAINABLE

Our production is entirely carried out with a view to the ethical path of a circular economy. This starts with our rotational moulding technology, which minimises any potentially harmful emissions and has a low environmental impact. Furthermore, thanks to the installation of solar panels on our warehouses, we have made a real turning point in the use of renewable resources that make the company even more independent in terms of energy. Made from 100% recyclable polyethylene, at the end of their lives, our products are returned to plastic powder, ready to be used for other 100% recycled furniture, particularly in Jet Black colour. Recycling also creates the most refined part of our collection, through product lacquering, the jewel in our crown. Painting the surfaces of our products helps cover up any scratches or small imperfections that might appear during production and therefore to salvage them into much finer objects, with the same resistance as all the others.

Thanks to our Research and Development department and our suppliers, we have added new, more ethical and durable raw materials. In fact, Ambrogio and Amanda are made with a new plastic, Geco, with 30% EcoAllene, a material entirely recycled from Tetra Pak cartons, which would otherwise be sent to incinerators. The Afrika collection, with its more textured colours, is made from bioplastic, a new material made from natural sugarcane fibres. In our new collections, we wanted not only to look at the aesthetics of the product but also at the beauty of our surrounding world, which we want to preserve thanks to a low environmental impact.

We Make ART

KARIM RASHID - TWIST, 2011

SLIDE Art is a sculpture project where Art and Design meet, combining their main special features: Design becomes higher conceptually, while Art becomes serially reproducible, in a limited number.

Thought and creativity therefore meet Italian craftsmanship, creating a new concept of Art, which shapes the material and turns it into sculptures produced in limited, numbered and certified pieces.

SLIDE Art is a hotbed of ideas where designers and artists can experiment with shapes, materials and concepts, supported by the expertise, knowledge and experience developed by SLIDE, in a dialogue that can combine a single work from two core elements, that of Design and Art, which are so similar yet so different. Alessandro Mendini, Karim Rashid, Anna Gili, Sacha Sosno, Jean Claude Fahry and Ben Vautier are just a few of the illustrious names that have taken part in the project.

We Make
ALL FOR YOU

Over the years, we have improved the comfort, along with the uniformity of light and the ergonomics of our products. We have therefore developed increasingly advanced furniture, we have played with textures and nuances capable of embellishing polyethylene, and we have researched into elements and accessories that would make our products really refined goods.

We have perfected our lights, so they can create even more striking atmospheres. This results in a range of complete furniture for every type of indoor and outdoor contract project.

We Make
TOGETHER WITH YOU

Magic and awe are encapsulated in lightweight, resistant furniture that is easy to move. From a desire to ensure that every event is unique and unforgettable comes the possibility of adjusting and customising our furniture with your logos, colours and accessories.

Over the past 20 years, we have been part of so many installations, which have led us to celebrate private and corporate events with you and to furnish your displays. We could not be happier when seeing you spend memorable moments accompanied by our furniture.

We Make
WITH LOVE

It has been 20 years full of innovation, new products and discoveries: a whirlwind that has led us to develop more and more product lines and to diversify our offer to provide the right product for your projects. Our catalogue is a guide for your needs: from accessories right up to a large part dedicated to the world of projects and events.

It is a journey through our art of making, shaped for you and with you in order to give you the perfect environment to live your life.

We Make ICONS

Over the past twenty years, we have created accessories with a unique design to make your spaces unforgettable. Five ways to be different, each with its own unique nature.

The image features a solid orange background. On the left side, there are several large, white, abstract, organic shapes that resemble stylized petals or leaves, arranged in a vertical column. On the right side, there is a list of five phrases in white, uppercase, sans-serif font, stacked vertically.
